

INFORMATION SYSTEMS SECURITY DIVISION

WEEKLY REPORT

16 - 22 December, 1987

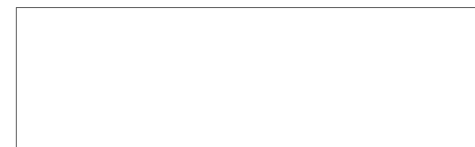

1. During this reporting period, members of the Administrative Support and Training Branch (AS&TB) presented five briefings to 55 students on computer awareness issues. Classes included WANG AL10, Fundamentals of VM, GIMS Users, Fundamentals of Personal Computers, and Special Police Officers Course (SPO).

3. An ISSD representative briefed the Special Security Center and Office of Information Technology's Database Systems Division on the current status of the Sensitivity Data Labeling Model Project. Areas briefed include the Data Labeling Model, requirements, and current status of the project.

4. A member of Agency and Community Systems Branch (A&CSB) along with members of Analysis Division, attended a Security Threat and Analysis Reporting System (STARS) design review on 12/18/87 at the STAC's facility
